About Dataset

Context

This dataset is created for beginner students of Data Analysis who can explore the field with real-life data. Using TED talk data will help them to analyze the talks and they can also watch the talks of their favorite author with the help of the dataset as well.

Content

This dataset contains 6 different features of each talk available on TED's website which you can find below

- title - Title of the Talk
- author - Author of Talk
- date - Date when the talk took place
- views - Number of views of the Talk
- likes - Number of likes of the Talk
- link - Link of the talk from ted.com

Description of "Sheet 1"

Sum of Likes for each Views (bin) broken down by count of data_tedtalk.csvandViews. The marks are labelled by count of data_tedtalk.csvandViews. The view is filtered on Views (bin), which has multiple members selected.

Marks

The mark type is Bar (Automatic).
The marks are labelled by Measure Values.
Stacked marks is on.

Shelves

Rows: Measure Names,Likes
Columns: Views (bin)
Filters: Measure Names,Views (bin)
Text: Measure Values

Dimensions

Measure Names has 2 members on this sheet
Members: Count of data_tedtalk.csv;Views
Views (bin) has 31 members on this sheet
Members: OK;23587K;28304K;47174K;9435K;...

Measures

Measure Values ranges from 1 to 4,490,273,232 on this sheet.
Sum of Likes ranges from 1,000,000 to 136,472,435 on this sheet.
